COURSE DESCRIPTION:

“Image Theory” relates to a specific visual constellation: it asks what an image is, how it addresses us, and how its features vary throughout history. But in a slight shift of accent, “Image Theory” may also mean theorizing with or by means of images and exploring their potentials for philosophy, anthropology, sociology, psychology, epistemology ... The course is located at the intersection of these two notions. It gives insight into seminal modern definitions of the image, and it analyzes how different fields of knowledge actively ‘think’ with images.

Considering the image concept’s great historical variability (from Byzantine theology and Baroque illusionism to modern realism or cutting-edge digital design) and also its stupendous generic breadth (painting, three-dimensional sculpture, still photograph, animated data visualization, fetish, video game, diagram, dream), the course cannot provide an exhaustive overview of all types of images. Instead we will focus on specific images as both objects and tools of thinking. We examine, for instance, how painting can represent new social discourses (*Michel Foucault*) or participate in the construction of gender (*Mieke Bal*). We look into the psychoanalytic dimension of images (*Sigmund Freud*) and into their capacity to translate paradigms from the natural sciences (*Michel Serres*). We ‘read’ the image as a visual narrative or ‘sense’ it as a material phenomenon. In this manner, participants will not only learn about issues of imagery and imagination but also about their position at the heart of many academic disciplines at CEU.

LEARNING OUTCOMES:

Students will learn about ► SEMINAL APPROACHES IN IMAGE THEORY. They will be introduced to ► instances of REPRESENTATION AND SIMULATION in painterly, photographic, cinematographic and digital media. They will get insight into ► PICTORIAL WAYS OF THINKING (in sociology, philosophy, history, cultural studies, gender studies, and political theory). They will develop ► skills in the SYSTEMATIC DESCRIPTION OF IMAGE SOURCES, learn ► how to OPERATE WITH IMAGES IN THE HUMANITIES AND SOCIAL SCIENCES, and get acquainted with ► ORIGINAL IMAGE MATERIAL through two excursions. They will train their ability to ► FORMULATE AND EVALUATE arguments through in-class discussions, presentations and written papers. They will have the opportunity to ► APPLY THEIR PRACTICAL KNOWLEDGE in the form of audio/visual course works.

WEEKLY SCHEDULE + READINGS:

- Participants prepare mandatory readings, visual and web-resources (printed in black) prior to the respective class.
- ▷ Grey font indicates optional readings and material: it serves as additional basis for your presentations, further explorations of the topic, and inspiration for your final course work ...

ASSIGNMENTS:

Attendance and ACTIVE PARTICIPATION in discussions / close readings / image interpretations

10% of the final grade

- ▷ Students are expected ▶ to REGULARLY TAKE PART in the discussions, comment on the presentations, the instructor's input and questions, address relevant aspects of the topic, reflect on the readings and audiovisual material ... Their ▶ participation is ASSESSED with respect to the relative QUANTITY AND QUALITY of their comments (targeted engagement with the concepts and/or readings, conclusiveness of argumentation, contextualization).

1 IMAGE DESCRIPTION (1 page min. / 2 pages max.)

15% of the final grade

- ▷ Every participant writes ► a brief 1-2 PAGE DESCRIPTION of an image (painting, photograph, film shot or very short film sequence, installation, digital collage, meme ...). The image can be freely chosen by the participant. The description should ► discuss the size, framing, composition, figures, relation of pictorial elements, coloring, movement, formal and aesthetic aspects, and content of the image in greatest possible detail. ► It should NOT CONTAIN INTERPRETATIONS of 'meaning' or 'symbols' or speculate about intentions (the goal is precise observation and description).
- ▷ The image description should be ► written as CONTINUOUS TEXT (no list or bullet points, etc.), STRUCTURED BY PARAGRAPHS. It should find an ADEQUATE ORDER FOR THE DISCUSSED FEATURES of the image (for example: from unimportant to important, from margin to center, from form to content ...). ► It should also INCLUDE A REPRODUCTION OF THE IMAGE itself.
- ▷ The image description will be ► assessed with respect to its ACCURACY, CLEARNESS, AND STRUCTURE.
- ▷ The description ► must be SUBMITTED DURING THE MIDTERM WEEK (February 13-18). Please send a .doc / .docx / .pdf file to the instructor who will add his comments and give written feedback.

1 in-class PRESENTATION

30% of the final grade

- ▷ Aside from describing/discussing the IMAGE MATERIAL of the respective class, the presentations ► assemble the MOST IMPORTANT ASPECTS FROM THE READINGS (mandatory and optional) and ► give ADDITIONAL INPUT (for instance, on historical or conceptual contexts). They should ► engage with the topic in a CRITICAL WAY (*no mere summaries of the text material*), present the main argument/s of the texts or audiovisuals, reflect on their approach to the subject, assess its validity, ► give an IMPULSE FOR DISCUSSION, and point out which ► aspects are DIFFICULT TO UNDERSTAND, remain opaque or raise further questions.
- ▷ Ideally, the student/s giving a presentation act/s as 'co-instructor' for the session, for example by ► preparing a number of QUESTIONS OR ISSUES FOR DISCUSSION (which can be included in the handout [see below]).
- ▷ Every participant ► selects a TOPIC/DATE from the syllabus for the presentation and enters their name in the respective DOODLE UNTIL SATURDAY, JANUARY 14, 2023:
<https://doodle.com/meeting/participate/id/bD1zD8yd>
- ▷ Depending on the number of participants, every topic can be ► presented BY 1 TO MAX. 3 STUDENTS (group presentation = JOINT preparation, structuring of material, handout, etc.): in most cases, the list of readings will provide enough material for a general overview and a discussion of partial aspects of the topic.
- ▷ *However, do not select a topic/date already assigned to another student as long as there are unallocated slots!*

1 concise PRESENTATION HANDOUT

10% of the final grade

- ▷ For their presentations, the participants are required to create a handout which shows ► the ORDER of the presented points, the MAIN ARGUMENTS, CONCLUSION, and further QUESTIONS.
- ▷ The handout ► should be structured in SHORT PASSAGES, KEYWORDS OR BULLET POINTS – no continuous text

and long sentences. Ideally, the structure and central ideas of the presentation should become visible at first glance. It serves as ► previous INFORMATION SHEET and, after the presentation, as learning and memory aid for the other course participants.

- ▷ The ► handout is ASSESSED with respect to its STRUCTURE, ACCURACY, AND CLEARNESS (*visual material and critical statements can of course be included*).
- ▷ The handout ► should be submitted NO LATER THAN 24 HOURS BEFORE the respective class. Please, send it as .doc/.docx/.pdf file to the instructor who will upload the document on MOODLE.

Final PAPER or final AUDIOVISUAL WORK

35% of the final grade

- ▷ Participants can produce either a written FINAL PAPER or an AUDIO/VISUAL RESEARCH WORK.¹
- ▷ The ► SUBJECT OF THE FINAL PAPER OR AUDIOVISUAL THESIS is chosen by the student. A discussion of the subject with the instructor is not obligatory but recommended. ► It can ADOPT A SUBJECT FROM THE COURSE SESSIONS; in this case, it should clearly EXPAND THE APPROACH AND SCOPE of the respective in-class discussion and presentation, for example by introducing new readings and additional material, focusing on specific aspects, widening the perspective. ► It is, however, suggested to CHOOSE A SUBJECT THAT HAS NOT BEEN PART OF THE SYLLABUS (but is connected to the overall theme of “Image/Theory”).
- ▷ The topic should be treated in an ‘academic’ manner, i.e., refer to at least three titles of scholarly literature. ► In any case, students are required to DEVELOP AN EXPLICIT RESEARCH QUESTION that states their interest and goals.
- ▷ Searching for ► relevant BOOKS, ACADEMIC ARTICLES, etc. is PART OF THE ASSIGNMENT. Students may consult the instructor, but are basically responsible for compiling their work material themselves.
- ▷ Upon consultation, ► the final work CAN ALSO BE PRODUCED IN GROUPS OF TWO – in this case, you can opt for a SHARED OR INDIVIDUAL GRADE. For individual grading, you must clearly indicate who produced which part of the work.
- ▷ The final paper ► should have a LENGTH OF ~1.500 TO 2.000 WORDS (*excl. cover sheet, list of contents, bibliography, etc.*). IMAGES should be inserted in the text (no separate part with illustrations). The STYLE FOR REFERENCING and quoting can be freely chosen but should be consistent throughout the paper. Papers should be in .doc, .docx or .pdf format.
- ▷ Papers are ► SUBMITTED VIA E-MAIL; the ► DEADLINE FOR SUBMITTING THE PAPERS is APRIL 20, 2023 (*it is highly recommended that you start working on your papers early during the term*).
- ▷ Main CRITERIA FOR ASSESSING the papers are:
 - Choice of topic (connection to course subject / adequate breadth [*you only have 1.500 words!*] / sufficient range of source material)
 - Originality of approach (subject, form of expression, combination of material and method that offer a ‘new’ perspective)
 - Clarity of structure (the order of your points, examples, arguments should be motivated and transparent / avoid redundancies and repetitions)
 - Conclusiveness of argumentation (no broad generalizations / illustrate your points with examples / verify them with scholarly sources)

¹ Please take note of CEU’s PLAGIARISM POLICY: <https://documents.ceu.edu/documents/p-1405-1>

- ▶ Development of own thoughts/conclusions (ideally, your work not only assembles theses of the [scholarly] sources but adds at least one original aspect ...)
- ▶ Clarity of style / verbal expression (does *not* mean 'empirical', 'dry', 'academic')
- ▶ Formal correctness (compliance with the guidelines concerning word count / consistency of footnotes and bibliography)
- ▷ Instead of a written paper, ▶ students may also prepare an AUDIO/VISUAL WORK (PHOTOGRAPHY, VIDEO, PAINTING, SCRAPBOOK, INSTALLATION, PODCAST, WEBSITE, ETC.): the work can be ▶ composed of SELF-PRODUCED MATERIAL AND/OR FOUND FOOTAGE. ▶ Formal and technical issues, extent or intended length should be coordinated with the instructor.
- ▷ Final audio/visual theses will ▶ not be graded according to technical criteria but based on the ORIGINALITY OF THE APPROACH AND THE POTENTIAL TO VISUALIZE OR CONVEY THE MAIN ARGUMENT.
- ▷ Audio/visual ▶ theses MAY BE COMPLEMENTED BY A WRITTEN COMMENT to elucidate their conceptual or theoretical approach.
- ▷ Deadlines are the SAME FOR WRITTEN AND AUDIO/VISUAL works.
